

Bajra Samaj Nepal Annual Report

July 2020 to June 2021

Introduction

Bajra Samaj Nepal (BSN) is a non-profit organization formed by local young people, teachers, women, farmers and ordinary community people for carrying out sustainable development activities in Ramechhap district in 2012. It is registered in District Administration Office Ramechhap (DAO), Nepal with its registration number 782. It is affiliated with Social Welfare Council (SWC), Nepal as 36308th NGO. It is registered with Inland Revenue Office as a tax free organization and received the Permanent Account Number (PAN) 600952765 from the government.

BSN's registration is renewed from District Administrative Office Ramechhap every year. Its programs have been approved from Local Government of Ramechhap and Social Welfare Council of Nepal.

An inclusive, nine member's executive board from local community is unanimously elected by the annual general body for four years to develop the annual programs, plans, coordinate with different stakeholders, implement and monitor the approved programs and projects.

Bajra Samaj Nepal (BSN) is empowering the poor, vulnerable and socially excluded community, mostly women and girls through providing awareness and ensuring their access on sexual and reproductive health rights and services, water and sanitation, livelihood and education programs in Ramechhap District from its establishment.

Objectives

- To organize programs in the sector of education, empowerment and entrepreneurship in the community.
- To increase awareness on various aspects of health care and risks of diseases such as cervical cancer in rural communities.
- To conserve and protect natural resources and environment by increasing awareness about the environmental risks and solutions that could be implemented.
- To help modernize the agricultural system and support the practice of organic farming through providing technical support for the rural community.
- To transform social structure and norm, and change perspective towards gender equality, diminishing caste discrimination and eliminate illiteracy.

- Ram Bdr Magar, Member

Program Areas

- ◆ Ramechhap District

Program Beneficiaries

The direct beneficiaries are 138 of poor, vulnerable and socially marginalized women and children in the community. Indirectly a total number of 690 people in the areas are benefited through its various programs and events.

Purna Magar

Message from Founder and President

It is my pleasure to share our annual report FY 2020/2021. The report includes highlights of our program achievements, in terms of how our programs and campaigns were successful to improve the lives of poor, vulnerable and socially excluded women, men and children together with experience and lesson we learnt.

Though there were various challenges seen in the way while implementing programs and projects due to limited financial resources, human resources, hardship in the program areas, we tried our best to translate our commitments into action through our projects activities and social movements. Due to Covid 19 Pandemic, one of our major programs 'camp for cervical cancer screening' is scheduled for next Fiscal Year.

BSN remains progressive, action and result oriented to address local community needs through inclusive, community driven and innovative approaches on its upcoming programs and projects. It will further institutionalize learnings and best practices from past programs and projects and enhance its capacities, areas of expertise and resources.

On behalf of our team, I would like to acknowledge and grant tons of thanks to all of our well-wishers, community volunteers and donors. Without your continuous generosity, we would not be able to achieve our goals for the rural community in Ramechhap Municipality, Nepal. We remains hopeful to take this partnership and collaborations for long term translating our values into actions for visible development impacts.

Purna Magar
Founder/President

Scholarship for Technical Education

Bajra Samaj Nepal is continuously supporting marginalized but talent students to gain professional education after successfully completed their 10th grade since 2016.

In this fiscal year, 4 students received partial scholarship for their technical education course. Two of them are talking 36 months diploma course in staff nurse and civil engineering and two others are studying 18 months course in Civil and Electric Assistant Sub-Engineering.

Samjhana is preparing for JT Course of Agriculture in next academic year.

Due to Covid 19 and national lockdown, Most of the students hardly attended their classroom for 3 to 4 months (in the last months of 2020 and initial 2 months of 2021). Now, they are limited in online study to meet the targeted course. There are some barriers to study online since the area where students residence is lack of easy access of internet service and frequent cut down of electricity. However, the students are studying as well as helping their parents for regular agriculture works.

Ramesh is taking online class of Ass. Sub-Engineering

Scholarship For High School Students

In the Fiscal Year 2020-21, there were 33 students benefited from BSN's scholarship program in the high school level. 14 out of them were male and 19 were female who were very marginalized community and economically low income generating families. The total figure of the students can be seen as shown in table below:

High School Scholars as of July 2021

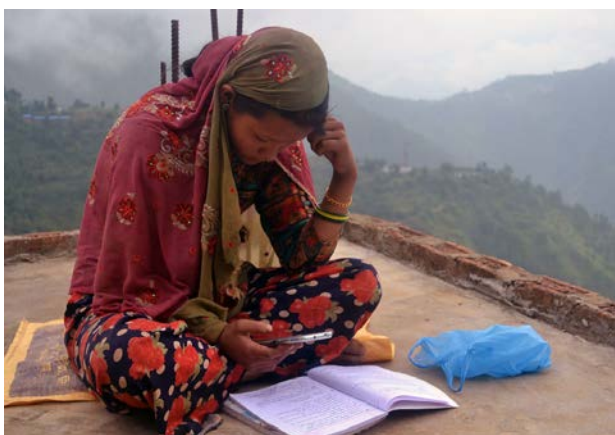

S.N.	Grade of Scholars	Male	Female	Total Students
1	Grade 7	2	2	4
2	Grade 8	6	1	7
3	Grade 9	2	5	7
4	Grade 10	2	7	9
5	Grade 11	1	3	4
6	Grade 12	1	1	2
	Total Number of Students	14	19	33

The school was able to operate their face to face class from November 2020 to March of 2021. During those months, the students of grade 10 took private tuition as well. Due to pandemic situation of Covid 19 and lockdown, most of the students from community school could not get online classes. Hence, most of the students could not meet the regular course target in this education year.

At the end of June of 2021, Janakalyan School Chyasku is preparing for online class for grade 8, 9 and 10's students. This will motivate students to learn in new method and stay connected with the course of study.

Students are taking private tuition after 1st lockdown caused by Covid 19 was over.

One of students is taking online class from home.

Story of Sukuna Magar

My name is Sukuna. I was born in Dangsingtar but grew up in Simal-Bhanjyang (neighboring village of Dangsingtar) since my parents moved because of the earthquake in 2015. My school is in 30 minutes walking distance from my home. I am waiting my School Education Exam (SEE) result.

My parents moved to Kathmandu in search of job. My parents are uneducated and own some dry lands. The food production from our land is not enough for us. My father does not have any technical skills to work at constructions. So, he took many loans from relatives to build house and for regular household expenses. That is why my father and mother went to Kathmandu to work as labor.

Now, I am staying at home with my younger brother and a sister. I have to look after some chicken and a female pig (sow) beside my study. Without Bajra Samaj Nepal's help I would have dropped my school after grade 5. They provided different kind of school materials, uniforms, bags, jacket etc. since I selected as scholar from grade 6.

The grade I obtained in class 9 was B and I am sure my SEE grade will be the same. So, my future plan is to be a Teacher. But the challenge is 'cost' that I need to achieve my aim. I know, BSN selected me as their scholar up to grade 12 but only for the registration fee. I hope I can sell the piglets and will manage for food and bus fare (My home is 15 KM away from 10+2 School in Ramechhap Bazar). My parents do not have enough earnings to meet my expenses.

BSN empowers deprived community of Ramechhap to enhance their knowledge in health & sanitation, livelihood and education.

Cervical Cancer Screening Camp

Bajra Samaj Nepal started cervical cancer screening camp in 2015. Since then, BSN is continuously organizing camps in Ramechhap. Particularly, BSN provided family planning services and Cervical Cancer Screening services to all the community of Ramechhap Municipality. From the beginning of the cervical cancer screening camp, 48 women got direct treatment and 1,063 women got cervical cancer check up. At the same time, more than 1,100 women got other family planning services provided at their own community.

Unfortunately, BSN could not organize any cervical cancer screening camps in FY 2020/21 due to pandemic caused by COVID 19. BSN is planning to conduct camps in FY 2021/22 when lockdown is over and the situation gets normal.

During the health camps Ramechhap Municipality coordinated with Hospital, Health Posts and Women Health Volunteers. Likewise, Tamakoshi Hospital Manthali, Ramechhap supported in health equipment and health personnel for the health camp management.

Cervical Cancer Screening Camps organized by BSN

Year	Cervical Cancer Screened	Suspected Cases	Treatment
2015	127	2	2
2016	172	9	7
2017	214	18	18
2018	96	7	5
2019	218	8	7
2020	236	9	9
2021	-	-	-
Total	1063	53	48
